## GUNBOAT SMITH KNOCKS OUT MCKAY

Left and Right to the Jaw Put Canadian Away in Second Round—McKay Had Better of First Session—Californian 30 Pounds the Lighter.

New York, April 2.—Gunboat Smith, the California heavyweight, knocked out Fred McKay of Canada in the second round of a scheduled ten round bout here tonight.

McKay had the better of the opening round, Smith finding it difficult to reach his opponent, who was taller and 30 pounds heavier. Smith weighed 183 pounds.

The Californian took the aggressive in the second round and managed to get within the Canadian's guard, landing several telling blows to the body. A left hook to the jaw and a right across to the same place ended the contest after one minute and forty seconds of fighting.

**SPOTTS LEADS FIELD WITH 183 BREAKS.**

McMahon Second in Travers Island Shoot With 179.

New York, April 2.—R. L. Spotts of the New York Athletic club, who won the All-American team of trapshooters at Stockholm last year, led a field of 130 being shots in the 200 target event at Travers Island today with 183 breaks to his credit. This was a remarkably high score, considering the blustering northwest wind, marring the flights of the targets.

Another Olympic victor, D. E. McMahon, of the home club, was second with 179, third with 178. These three leaders are also members of the Moosemuncie club of Haines Landing, Me.

Today's event served as a preliminary for the national amateur championship shoot at 200 targets which will be decided over the same traps tomorrow and for which more than 150 entries have been received. An evening shoot at 100 targets for men and women was decided on the results of the preliminary shoot today and tomorrow. New York with a total of 1708, Boston with 1513, 1502 and Philadelphia third with 1509 out of 2,000 targets.

**BROWN'S NINE UNSETTLED.**

Keen Competition for Almost Every Position on Team.

The Brown baseball squad enters its last week of practice with nearly every position undecided. Poor weather since the team was taken outdoors, a little over a week ago, has hindered the development of the men's game, and Coach Harry Patterson has not had the opportunity he desired to watch the candidates for the various positions. Some of the men who showed up well in the cage have failed to materialize in the outdoor practice.

Andrews and Durgin are both fighting for first base, with the former having a shade the better of the argument, although Durgin's experience last year counts in his favor. Andrews is fast on his feet and an accurate fielder, while Durgin has a clearer head, as well as the physical advantage of being taller than his opponent. Dukette, Tewhill and Donahue are all possibilities for the middle base, although Donahue is not showing the form exhibited by the older men. Dukette, who has played for two years, has picked up well in the cage, but Tewhill is his superior thus far in the outdoor work, and will probably have the call when the lineup is announced Friday night.

Really a veteran, is fairly sure of his place at third, though the close fight over shortstop may give him a hard time. Crowther and Johnson are both hot after the shortfield position, and as both are good men Coach Patton may decide to award the third base place to the loser in the contest for shortstop. Captain Snell is in good form, and will undoubtedly be the mainstay behind the bat, with Hazlett and Taylor more to help him out. In the box Eddie Evans stands first, with Cram and Crowell as second choices, though there is little chance of the latter being able to play. Crowell was behind in his studies, but continued with the squad in the hope that he would pass off the conditions in time to play. He took examinations last week, however, and failed them, with the result that he will probably be ineligible for the remainder of the year.

He took examinations last week, however, and failed them, with the result that he will probably be ineligible for the remainder of the year.

Loud and Nash are sure of places in the outfield, as both men are veterans, and are showing up well in practice, although Nash is still in bad shape with an injured arm. The other outfield post is still vacant, though several men are after it. No further work will be made in the squad until after the close of the spring recess, the 15th, when the 19 men will be cut to about 15. All men retained on the squad will remain in Providence during the vacation for regular practice.

Smith outclassed Hogan and dropped him to the floor several times with heavy swings. In the 11th Smith landed a terrific right which stunned the Frenchman, who stood swaying, with his arms hanging at his sides, unable to offer any defense to the series of blows. Then his seconds came to his rescue, while the spectators booed the referee for not stopping the fight.

**Zeller Wants Nickname.**

Manager Jack Zeller of the Pittsfield club, which is as yet short a nickname, is having all sorts of fun in the suggestions that have already reached him after his announcement that he would give a season ticket to the home games to the fan who suggests the best handle for the club. One man called him up last night just as he was going to bed to suggest that the team be called the "Electric" because this is an electric city and the Pittsfield club is likely to give the others a shock sometime. Another enterprising fan with a whooping imagination has named the team which has not yet reached its address, in which there are fifty suggestive names. Manager Zeller wants a name which shall suggest something of the Berkshires and something that will be at the same time "short and sweet."

## 20,000 Miles

What car will carry you that distance in greater comfort and safety, and with less trouble and expense than a Chalmers "Thirty-Six"?

It's a pretty poor car indeed that won't make a good showing in a salesman's demonstration.

But it takes a pretty good car to travel 20,000 miles and please you as well at the end as it did in the beginning.

Chalmers cars stand this test. Hundreds are driven this far every year. Some have been driven as high as 140,000 miles, and are still in daily service.

You can pay almost any price for a motor car, but even the highest priced won't carry you 20,000 miles in more comfort with greater economy, or with less mechanical attention than the medium-priced Chalmers "Thirty-Six."

No lower priced car will give you equal comfort, economy and reliability.

Long stroke motor, four-forward speed transmission,

nickel steel axles, extra large brakes—these and many other features of design secure the mechanical excellence of the Chalmers.

Large valves, new style Chalmers piston rings, improved carburetor, Timken bearings throughout the running gear—these are some of the Chalmers features which make for economy.

Turkish cushions, Kitch upholstery, long wheel base, large wheels and tires, long flexible springs—these are the things which make your Chalmers "Thirty-Six" comfortable. None more so.

Try the Chalmers "Thirty-Six" for 20,000 miles. By that time you will be agreed with us that no car at any price offers as much real automobile value for the money.

Let us give you your first Chalmers ride at your convenience.

## FINANCIAL AND COMMERCIAL

### SMALL NET CHANGES.

Realizing Sales Halt Rising Tendency of Stocks.

New York, April 2.—The rise in the market was halted today, during the early trading prices were scaled down, moderately, but later there was a gradual recovery, and net changes were mixed. The advance of stocks for the day, running from 5 to 10 points in many cases, had reached sufficient proportions to invite realizing sales, which were largely responsible for the action of the market.

Depression of European markets tended to check the advance here. There was some buying of stocks for foreign account, but on a smaller scale than during the earlier days of the week. Reversing operations led to the Balkan situation owing to the attitude of Montenegro, made it plain that the foreign situation still must be taken into consideration. With the passing of the April settlements and earlier money conditions it is expected that some of the semi-governmental European banks may reduce their minimum discount rates, although no change in the bank of England's rate is expected tomorrow.

Money was easier here. Call rates relaxed considerably from the high quotations of the preceding two days, and quotations for time funds and commercial paper were shaded. The change in the money market and rather extensive purchases of stocks recently by Europe were of effect on foreign exchange rates which were lower. Rumored dropping another low point today, dropping nearly five points to 37 1/4. Weakness of this issue was attributed to the statement of the bank of the semi-governmental bank, Can. Rubber and the local traction stocks were in demand at rising prices.

The bond market was less active. Movements were irregular, with none of the wide fluctuations which characterized yesterday's market. Total sales, par value, \$2,450,000.

Panama three coupon declined 3-8 on call.
